

Présider Dufour Yachts est une lourde responsabilité

Partout dans le monde, sur terre et sur mer, les yeux sont tournés vers nous parce que nous sommes les héritiers d'une marque qui n'a jamais cessé d'innover et de surprendre. Cette marque est celle qui a fait entrer le nautisme dans la modernité. Comment?

En inventant le voilier sur lequel on ne fait pas que naviguer, mais que l'on vit intensément et confortablement, passionnément. Innover demandait beaucoup de vision. Perpétuer en demande tout autant. C'est une mission que nous relevons avec brio: l'ultime navigation est aujourd'hui encore signée Dufour.

Salvatore Sero
Président

BEING CHAIRMAN OF DUFOUR YACHTS CARRIES A GREAT DEAL OF RESPONSIBILITY.

All around the world, on land and at sea, eyes are upon us, because we are the heirs to a brand that has never stopped innovating and surprising. This is the brand that brought yachting up to date. How? By inventing the yacht on which you don't merely go sailing: the yacht you actually live on, intensely, comfortably, passionately. Being a pioneer took a great deal of vision. Staying ahead of the field takes just as much. This is a mission we accept with great enthusiasm: still today, the ultimate sailing experience bears the name of Dufour.

50 ANS D'HISTOIRE DUFOUR

IL S'APPELLE MICHEL DUFOUR
 Si les voiliers
 d'aujourd'hui ne sont
 pas que des coques
 et des voiles,

s'ils sont de grands vaisseaux qui
 allient le confort à la performance,
 c'est à Michel Dufour qu'on le doit.
 Visionnaire, précurseur, il fut parmi
 les premiers à comprendre que la mer
 offrait la plus belle évasion, le plus beau
 refuge, dès le moment où les voiliers
 se sentent à la fois agiles et à l'aise et
 agréables à vivre. C'est pourquoi, dans
 l'industrie nautique française, mais plus
 encore, il nous a légué une profonde
 compréhension de ce que doit être
 un voilier: l'une des plus formidables
 sources d'assouvissement de ce qui
 s'appelle la soit de vivre.

HIS NAME WAS MICHEL DUFOUR
 Yachts today are more
 than just hulls with
 sails,

they are now large vessels that combine
 comfort and performance and we owe
 all this to Michel Dufour. A visionary,
 a precursor, he was one of the first to
 understand that the sea and after a voyage
 on board a yacht could become both enjoyable
 and pleasant to live on.
 Michel's legacy is now the pride of the
 French yachting industry. But more than
 that, he has passed on to us an in-depth
 understanding of what a sailing yacht
 ought to be: one of the most terrific
 ways to satisfy our thirst for life.

1973

The first production
 series of Dufour
 yachts was awarded the
 Export Prize.

1967

He conceived the
 legendary Adagio,
 modern, which 1,500 were
 built.

1965

The Sybille, first
 yacht designed
 by Michel Dufour, was
 built in 1,500 copies.

1964

Engineer and sailor
 Michel Dufour set
 up his own boat
 building workshop
 in Rochelle.

2012

Launch of 4 new
 Grand Large
 models: 380, 410,
 450, 500. The
 Dufour 380 Winner of
 the European Yacht
 Award.

2010

Dufour's Grand
 Large 405 was elec-
 ted European Boat
 of the Year.

2006

Five Grand Large
 models came out of
 our workshops: the
 Dufour 325, 405,
 485, 505 and the
 385, elected Yacht
 of the Year.

2003

The Dufour 40 was
 elected Yacht of the
 Year in France
 and European Boat
 of the Year.

2008

Receivment of a
 Grand Large
 models: 380, 410,
 450, 500. The
 Dufour 380 Winner of
 the European Yacht
 Award.

2009

 elected Yacht of the
 Year in France
 and European Boat
 of the Year.

QUALITÉ DUFOUR

A TEAM OF PERFECTIONISTS

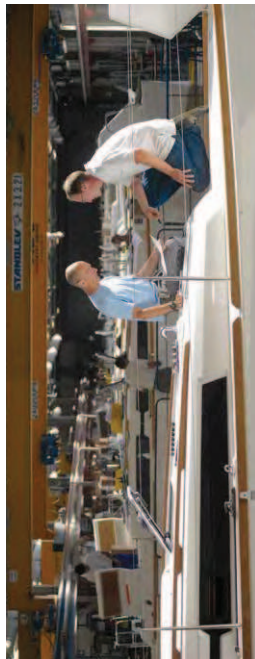

Not many other people know how to do what our craftsmen are doing every day.

They use exclusive technologies. They possess unique know-how. But still more than this, they are burning with zeal. Perfectionists in the extreme, they are aware they are building much more than just sailing yachts: they are building Dufour.

UNE ÉQUIPE DE PERFECTIONNISTES

Ce que nos artisans oeuvrent chaque jour, peu savent le faire.

Ils ont accès à des technologies exclusives. Ils ont un savoir-faire unique. Mais plus encore, ils sont passionnés par leur métier. Perfectionnistes à l'extrême, ils savent qu'ils construisent bien plus que des voiliers: ils construisent des Dufour.

THE ULTIMATE PLEASURE SHARED BY ALL

Get away from the world. Leave it behind you.

It doesn't much matter where you go: it's all about living for the present moment, aboard a yacht designed so sailing is a pleasure at all times, an endless succession of feelings of ultimate luxury. These unique, magical moments are the result of a perfect combination of sailing with natural materials, large a board with every modern convenience a divine balance wherein each member of the crew can savour every moment to the fullest.

L'ULTIME PLASIR PARTAGÉ ENTRE TOUS

Quittez le monde. Laissez-le derrière vous.

Voire destination a peu d'importance: tout se vit au présent, sur un voilier conçu pour que la navigation soit un plaisir de tous les instants, une suite sans fin de sensations d'ultime liberté. Ces moments uniques et magiques sont le fait d'une conception harmonisée de la voile : une navigation aux matériaux naturels, une large surface de planche, un équilibre entre chaque membre d'équipage goûte la plénitude du moment.

410
DUFOUR
GRAND LARGÉ

DESIGNED TO SEDUCE

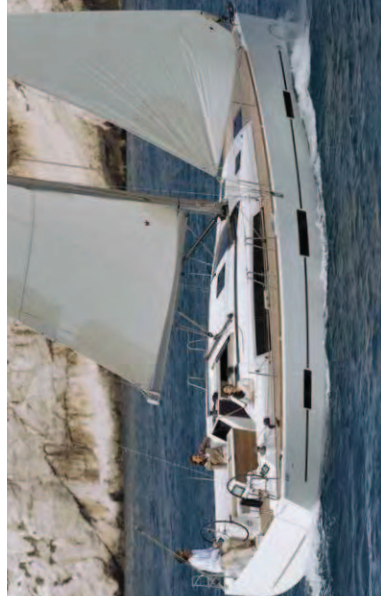

Audacious, innovative, precursor,

the Grand Large 410 is designed to simultaneously seduce the skipper and the crew. The helm area has been tuned to facilitate maneuvering for the captain, while the crew enjoys a spacious cockpit, wide side decks and an expanded swim platform. Dufour's designers have clearly focused on optimizing each space according to its function, enhancing the cruising experience for everyone. From the mooring to the windward mark, gradual lines radiate elegance on every point of view. The profile is cut by a light LED lighting that is a fresh styling touch that will surely set the trend for future designs.

UNE ERGONOMIE FACILITANTE

Audacieux, innovateur, précurseur,

le Grand Large 410 a réussi avec grande distinction le pari fou de bichonner le barreur tout en prenant soin de l'ensemble de l'équipage. Poêle de manœuvre optimisée, cockpit spacieux, larges passerelles et plateforme élargie. Comme d'habitude, Dufour a plus surdimensionné. Avant de choisir l'axe sur l'optimisation des volumes et la douceur de la navigation. Une douceur qui s'affiche majestueusement, même au mouillage: des LED longent le roof pour révéler fièrement tout le chic et toute l'élégance d'une conception qui fera école.

SPECIFICATIONS 410

Architectes	Architects	Fabo Yachts
Longueur hors tout	Overall length	40,52 ft
